All information and transaction processing is completed on the store owner's web server.

This process requires greater server space dependencies, and resulting increased costs and expenses.

|         |                | <p>Tools Across America:</p> <p>2/4/00 - Opened the account</p> <p>2/27/00 - Received First Shipment of tools. The order was complete, and on-time. I think these people are eager to work with us. They could really become a valuable asset to our business. -MP5-</p> <p>8/3/00 - They are lowering their prices for us, because of the volume of business we give them. Take the Account manager out of dinner. -MP5-</p> <p>1/15/01 - We did over \$1 million in business profit in 2000 as a result of their good products and pricing. They have become TOO much of a crutch for us. We must continue to work with them, but look for other avenues of sourcing. -MP5-</p> |
